Reed R7700 Gloss Meter, 3 Angle

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7700 Gloss Meter, 3 Angle

Manufacturer: Reed Instruments

Model: MEA-REE-03007

Availability: In Stock

Description

The REED R7700 is a compact, one-handed gloss meter that takes readings simultaneously at three geometries (20/60/85 degrees) across a 0-200 GU range, letting the operator judge low-, medium- and high-gloss surfaces without switching angles. It has a backlit LCD, auto-calibration, and onboard memory for roughly 250 stored readings, and is built to ASTM D523/D1455/C584/D2457 gloss-measurement standards for use in automotive paint, tile/stone and ink/coating inspection.
