Reed R7800 Thickness Gauge, Coating, 1250um/50mils

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7800 Thickness Gauge, Coating, 1250um/50mils

Manufacturer: Reed Instruments

Model: MEA-REE-03008

Availability: In Stock

Description

The REED R7800 is a non-destructive coating thickness gauge that automatically senses ferrous and non-ferrous substrates and measures up to 1250 microns (about 50 mils) with roughly 3% accuracy. It has a color LCD with tri-color pass/fail LED indication, zero or two-point calibration, min/max/average logging with storage for up to 500 measurement groups, and a USB link to export data to the bundled software.
