Reed R7900-KIT Thickness Gauge With 5-Step Calibration Block

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7900-KIT Thickness Gauge With 5-Step Calibration Block

Manufacturer: Reed Instruments

Model: MEA-REE-03012

Availability: In Stock

Description

The R7900-KIT bundles the standard Reed R7900 ultrasonic thickness gauge with Reed's R9060 five-step steel calibration block, which carries both imperial and metric step markings. The block lets a technician verify the gauge's accuracy across multiple known thicknesses before field use, making this kit a convenient one-box setup for pipe and pressure-vessel inspection work.
