Reed R7950 Ultrasonic Couplant Gel 8.45oz (250ml)

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7950 Ultrasonic Couplant Gel 8.45oz (250ml)

Manufacturer: Reed Instruments

Model: MEA-REE-03017

Availability: In Stock

Description

An 8.45 fl oz (250ml) bottle of general-purpose ultrasonic couplant gel formulated for use with ultrasonic thickness gauges on iron, steel, aluminum and titanium surfaces. The water-soluble gel dries slowly and gives good transducer lubrication, and its thick consistency lets it cling to vertical, overhead and horizontal surfaces during inspection. Supplied in a convenient applicator-top bottle.
