Reed R9050 Coating Thickness Calibration Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R9050 Coating Thickness Calibration Kit

Manufacturer: Reed Instruments

Model: MEA-REE-03020

Availability: In Stock

Description

A calibration/verification kit for coating thickness gauges, supplying a calibration iron piece, a calibration aluminum piece, and reference foil films so users can check and adjust gauge accuracy before field measurements. Housed with its components for use across compatible REED coating thickness meters, it carries REED's one-year warranty.
