Reed SD-6100-LOADCELL Replacement Load Cell For Sd-6100

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed SD-6100-LOADCELL Replacement Load Cell For Sd-6100

Manufacturer: Reed Instruments

Model: MEA-REE-03024

Availability: In Stock

Description

This is a genuine REED replacement load cell sensor for the SD-6100 Data Logging Force Gauge, intended to restore or replace the force-sensing element inside the 220 lb (100 kg) capacity meter. It swaps in for the original load cell so the gauge can continue accurately measuring push/pull force after wear or damage to the factory sensor. Backed by REED's one-year manufacturer warranty.
