Reed TM-8811 Thickness Gauge, Ultrasonic, 0.05/7.9", 1.5/200mm

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed TM-8811 Thickness Gauge, Ultrasonic, 0.05/7.9", 1.5/200mm

Manufacturer: Reed Instruments

Model: MEA-REE-03027

Availability: In Stock

Description

Ultrasonic thickness gauge for non-destructive wall-thickness checks on steel, aluminum, copper, and various plastics, covering 0.05-7.9 in (1.5-200mm) with accuracy around $\pm(0.5\% + 0.1\text{mm})$. Features a built-in automatic calibration routine, a clear LCD readout with selectable inch/mm units, and a low-battery warning. Ships complete with probe, couplant gel, hard carrying case, and batteries, backed by a one-year manufacturer warranty.
