Reed TM-8811-KIT Thickness Gauge With 5-Step Calibration Block

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed TM-8811-KIT Thickness Gauge With 5-Step Calibration Block

Manufacturer: Reed Instruments

Model: MEA-REE-03029

Availability: In Stock

Description

Bundles the REED TM-8811 ultrasonic thickness gauge with a steel 5-step calibration block marked in both imperial and metric scales, letting technicians verify gauge accuracy across a graduated range before field use. Well suited to pipe and pressure-vessel inspection and other quality-assurance settings where routine calibration checks are needed. Covered by a one-year manufacturer warranty.
