Reed R3001-NIST Anemometer/Manometer, Pitot Tube, 80.0m/S/±5000pa W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3001-NIST Anemometer/Manometer, Pitot Tube, 80.0m/S/±5000pa W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-03035

Availability: In Stock

Description

A dual-function pitot-tube anemometer and differential manometer that reads air velocity up to 80 m/s and differential pressure to +/-5000 Pa on a backlit dual-LCD display, with Max/Min/Average/Relative capture and a real-time clock for timestamped logging. It includes silicone tubing, a pitot tube, USB cable and software, a carrying case, and a tripod mount for continuous-monitoring setups. This unit ships with an included NIST-traceable calibration certificate.
