# Reed R3030-NIST Manometer, 30psi W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

## Product Overview

### Reed R3030-NIST Manometer, 30psi W/Nist Cert

**Manufacturer:** Reed Instruments

**Model:** MEA-REE-03040

**Availability:** In Stock

## Description

The R3030-NIST digital manometer handles gauge and differential pressure readings up to 30 psi across 11 selectable units of measure. It's built around a large backlit display with onboard memory for Max/Min capture, rated accuracy of about  $\pm 0.30\%$  of full scale, and a roughly half-second response time on a single 9V battery. It's a practical choice for HVAC work, pipe and pneumatic pressure checks, and general field engineering tasks, and this version ships with a NIST-traceable calibration certificate.
