Reed R7050-NIST Tachometer, Photo, 99,999 Rpm W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7050-NIST Tachometer, Photo, 99,999 Rpm W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-03043

Availability: In Stock

Description

The REED R7050-NIST is a pocket-sized photo tachometer that reads rotational speed from 2 to 99,999 RPM without touching the target, using a built-in laser pointer to aim at reflective tape on the object. It also doubles as a revolution counter and keeps the last, minimum and maximum readings in memory, displaying results on a backlit LCD at about $\pm 0.05\%$ accuracy. The package includes reflective tape, a carrying case, battery and an ISO/NIST-traceable calibration certificate.
