Reed R7100-NIST Tachometer, Photo/Contact, 99,999rpm/19,999 Rpm W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R7100-NIST Tachometer, Photo/Contact, 99,999rpm/19,999 Rpm W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-03044

Availability: In Stock

Description

The REED R7100-NIST combines non-contact laser and physical-contact measurement in one tachometer, reading 10 to 99,999 RPM optically and 0.5 to 19,999 RPM via contact adapters, both at roughly $\pm 0.05\%$ accuracy. A five-digit LCD shows the result along with stored max/min/last values, and the kit adds cone and funnel contact tips plus a surface-speed wheel for versatile use on shafts, motors and conveyors. It is supplied with an ISO/NIST-traceable calibration certificate.
