SinoGnss R500 Battery

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

SinoGnss R500 Battery

Manufacturer: ERP Manufacturer #15

Model: SUR-SIN-03110

Availability: In Stock

Description

A rechargeable 3.7V lithium-ion battery pack sized for the SinoGnss R500 handheld GNSS data collector, offering roughly 6500mAh (24Wh) of capacity to keep the unit running through a full day of fieldwork. It serves as a spare or replacement cell for R500 units whose factory battery has worn down, and should be charged only with the unit's specified charger and kept away from heat, moisture, or physical damage as noted on the cell's own safety labeling.
