

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF BT82 Battery

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03229

Availability: In Stock

Description

The FOIF BT82 (also frequently listed as the BT82A) is a high-capacity, professional-grade Lithium-ion battery pack. It is the standard power source for a wide range of FOIF precision instruments, including modern total stations and GNSS receivers. Built to withstand the rigors of long days in the field, the BT82 provides the stable voltage required for high-accuracy distance measurements and internal processing. Product Overview As a core accessory for the FOIF RTS and OTS series, the BT82 is engineered for longevity and reliability. It features a high energy density that allows for extended operating times, reducing the need for mid-day battery swaps during critical topographic surveys ...
