

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF BT43 Battery Cells Only

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03246

Availability: In Stock

Description

This product listing is for the internal replacement cells used to rebuild or repair the FOIF BT43 battery pack. Instead of replacing the entire outer housing, these high-grade lithium-ion cells allow you to restore your battery's original capacity and performance at a fraction of the cost. Product Overview The FOIF BT43 battery is a 7.4V system typically found in the FOIF RTS100, RTS112, and OTS650 series total stations. Internally, this pack is powered by a 2S (2-Series) configuration of industrial 18650 cells. These replacement cells are specifically selected for their high energy density and stable discharge rates, essential for the Electronic Distance Measurement (EDM) and motorized f...
