

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF FDQ7-02 Charging Dock

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03271

Availability: In Stock

Description

The FOIF FDQ7-02 is a professional-grade, high-capacity charging cradle designed for the rigorous demands of modern land surveying. Specifically engineered for the A-Series GNSS receivers (A60, A90, A90+), this dual-slot dock allows for the simultaneous and independent charging of two smart Li-ion batteries, ensuring your crew stays operational from sunrise to sunset. Key Features Dual-Bay Independent Charging: Features two fully independent charging slots. You can charge one battery or two at the same time without affecting the charging speed of either unit. Intelligent Battery Recognition: The FDQ7-02 communicates with the battery's internal management system to optimize the cha...
