

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF FDQ7-02 Charging Adapter

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03272

Availability: In Stock

Description

The FOIF FDQ7-02 is a professional-grade AC power supply designed specifically for high-capacity charging systems used with FOIF GNSS receivers and total stations. As the primary power source for the FDQ7-series charging cradles, this adapter provides the stable, high-amperage DC output required to quickly and safely recharge modern Li-ion battery packs like the BT90 and BT96. Key Features High-Efficiency Power Delivery: Specifically calibrated to provide a constant current and voltage flow, minimizing charging time while preventing the overheating of connected battery cells. Universal Input Range: Optimized for global use with an input range of 100V - 240V AC, ensuring reliable o...
