

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF FDQ7-01 Charging Adapter

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03273

Availability: In Stock

Description

The FOIF FDQ7-01 is a high-performance AC power adapter specifically engineered to provide a stable and regulated power supply to FOIF battery charging systems. As a critical component of the FDQ7 Battery Charger Kit, this adapter ensures that your GNSS receivers and Total Station batteries receive the precise voltage required for safe, efficient, and rapid charging. Key Features Stable Power Delivery: Engineered to convert AC wall power into a clean DC output, protecting sensitive charging circuitry from voltage spikes and ensuring consistent performance during long charging cycles. Global Voltage Compatibility: Supports a wide input range of 100V – 240V AC, making it a versatile...
