

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

F52G

Product Overview

FOIF F52G Data Collector

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03305

Availability: In Stock

Description

The FOIF F52G is a professional-grade, fully rugged PDA designed for high-precision geospatial data collection. Built to withstand the most demanding field conditions, this data collector serves as the primary interface for FOIF GNSS receivers and Total Stations, offering a seamless blend of portability, durability, and processing power. Key Features Sunlight-Readable Display: Features a 3.5-inch color TFT LCD touchscreen with transfective technology, ensuring clear visibility even under direct, intense sunlight. Rugged Reliability: Rated IP54 for water and dust protection, the F52G is engineered to operate in extreme temperatures ranging from -20°C to +50°C, making it a reliable...
