SinoGnss N2 Rover GNSS Receiver Kit Incl. Internal UHF-GSM Modem With Controller

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

SinoGnss N2 Rover GNSS Receiver Kit Incl. Internal UHF-GSM Modem With Controller

Manufacturer: ERP Manufacturer #15

Model: SUR-SIN-03368

Availability: In Stock

Description

The SinoGNSS N2 rover kit includes the same rugged palm-sized receiver with an internal UHF radio and GSM modem, bundled with a controller for rover-side RTK surveying. It tracks GPS, BDS, GLONASS, Galileo and other signals on ComNav's K8 platform, connects via Bluetooth 5.0 and USB-C, and is built to IP67 standards for harsh outdoor conditions. Its 10,000 mAh battery and tilt-compensated pole workflow make it suited for fast, single-person RTK point collection.
