Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

SinoGnss Mars Laser Rover GNSS RTK Receiver Kit Incl. Internal UHF-GSM Modem With Controller

Manufacturer: ERP Manufacturer #15

Model: SUR-SIN-03372

Availability: In Stock

Description

The rover-only version of ComNav's Mars Laser RTK kit, bundled with a handheld controller for use against an existing base station or a CORS/NTRIP network rather than a dedicated base unit. It shares the same rugged IP67 receiver as the base-rover kit, with an internal UHF-GSM modem, 60+ satellite tracking, and a laser rangefinder that lets it capture offset points without physically placing the pole. Dual batteries give roughly a full day of fieldwork per charge.
