

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

FOIF FDJ7 Charger

Manufacturer: Suzhou FOIF

Model: SUR-SUZ-03410

Availability: In Stock

Description

The FOIF FDJ7 is a professional-grade, dual-slot intelligent charging station designed to provide reliable power management for FOIF land surveying equipment. Engineered specifically for high-capacity Li-ion battery packs used in Total Stations, Digital Theodolites, and GNSS receivers, the FDJ7 ensures your gear stays powered through demanding multi-day field operations. Key Features Dual-Slot Independent Charging: Equipped with two independent charging bays, allowing you to charge two batteries simultaneously or one at a time. This significantly reduces downtime by ensuring a fresh backup is always ready. Intelligent Circuit Protection: Features advanced safety protocols, includi...
