MUYA WT82B Anemometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA WT82B Anemometer

Manufacturer: Muya
Model: MEA-MUY-04463
Availability: In Stock

Description

The WT82B is a handheld anemometer that reads wind speed from 0-30 m/s (with m/s, km/h, mph, knots, and ft/min options) alongside ambient temperature from -10C to 45C. Its Bluetooth link lets users log readings to a companion app, and the backlit LCD shows current, max, and average wind speed along with a Beaufort scale reading and wind-chill calculation.
