This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Muya Wt3010 Ac Voltage Detector

Manufacturer: MUYA
Model: MEA-MUY-04478
Availability: In Stock

Description

The MUYA WT3010 is a non-contact AC voltage detector that lets electricians check for live wires and outlets from 12V up to 1000V at 50/60Hz without touching bare conductors. A sensitivity switch toggles between high (12-1000V) and low (48-1000V) detection modes to cut down on false triggers, and it combines audible, visual, and on-screen alarms with a built-in LED flashlight for low-light work. It carries a CAT III 1000V / CAT IV 600V safety rating for use around household and industrial wiring.
