MUYA WT3122 Electromagnetic Radiation Tester

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA WT3122 Electromagnetic Radiation Tester

Manufacturer: Muya
Model: MEA-MUY-04479
Availability: In Stock

Description

The MUYA WT3122 Electromagnetic Radiation Tester is a handheld meter for checking electric and magnetic field radiation from appliances, wiring, and electronics, part of the same dual-sensor product line Hedao builds its EMF meters around. It reads electric field strength (V/m) and magnetic field strength (uT) simultaneously, triggering an automatic sound-and-light alarm once safe exposure thresholds are crossed. Its one-handed design and fast roughly 0.4-second sampling make it convenient for quick EMF spot-checks around the home or workplace.
