# MUYA WT8800 Oxygen Monitor

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

## Product Overview

### MUYA WT8800 Oxygen Monitor

**Manufacturer:** Muya  
**Model:** MEA-MUY-04482  
**Availability:** In Stock

## Description

The MUYA WT8800 Oxygen Monitor is a portable gas-safety instrument that continuously tracks ambient oxygen concentration from 0 to 30% VOL, catching oxygen-deficient or oxygen-enriched atmospheres before they become hazardous. It responds to changing conditions in under 30 seconds, and its color display plus sound/light/vibration alarms give clear, immediate warning when levels drift outside a safe range. A rechargeable battery and onboard logging for up to 120,000 readings suit it to ongoing monitoring in confined spaces and industrial sites.
