MUYA WT8802 Hydrogen Sulfide Monitor

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA WT8802 Hydrogen Sulfide Monitor

Manufacturer: Muya
Model: MEA-MUY-04484
Availability: In Stock

Description

The MUYA WT8802 Hydrogen Sulfide Monitor is a dedicated H₂S safety instrument that measures toxic gas concentration from 0 to 100 umol/mol with accuracy rated within +/-5% of full scale. Its color screen, bilingual display, and three-way sound/light/vibration alarm give workers clear, immediate warning of a hydrogen sulfide hazard, responding in under 30 seconds. Built for petroleum, chemical, and wastewater environments, it stores up to 120,000 logged readings and runs on a rechargeable lithium battery for extended field shifts.
