MUYA GT1050 Digital Lux Meter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GT1050 Digital Lux Meter

Manufacturer: Muya
Model: MEA-MUY-04491
Availability: In Stock

Description

The MUYA GT1050 is a digital lux meter for measuring ambient light levels in offices, factories, greenhouses, and photo studios. It reads illumination from 0 up to 200,000 lux across four auto/manual gear ranges with a switchable Lux/Fc display, and pairs light readings with a built-in temperature sensor. Automatic storage of thousands of readings, a backlit screen, and auto shut-off after idle time make it convenient for repeated field surveys.
