MUYA GT8915 Digital Anemometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GT8915 Digital Anemometer

Manufacturer: Muya
Model: MEA-MUY-04493
Availability: In Stock

Description

The MUYA GT8915 is a handheld digital anemometer for quick wind-speed and temperature checks outdoors or on the job site. It measures air velocity up to roughly 30 m/s (about 65 mph) across multiple selectable units, plus temperature from -10C to 45C, showing live, average, and peak readings on a backlit LCD. Its compact, weather-resistant design and one-hand operation make it a practical everyday tool for sailing, HVAC checks, and general outdoor wind monitoring.
