MUYA GM650A Grain Moisture Meter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GM650A Grain Moisture Meter

Manufacturer: Muya
Model: MEA-MUY-04497
Availability: In Stock

Description

The MUYA GM650A Grain Moisture Meter is a handheld tester designed for farmers and grain handlers to quickly check moisture levels in harvested crops before storage or sale. It covers an approximate 5-30% moisture range with a built-in probe, plus a temperature reading function, and includes a backlit display with Celsius/Fahrenheit switching and an auto-shutoff to save battery. Selectable grain-type settings and a moisture-alert feature help flag grain that's too wet for safe storage.
