MUYA GM521 Pressure Manometer For Natural Gas

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GM521 Pressure Manometer For Natural Gas

Manufacturer: Muya
Model: MEA-MUY-04504
Availability: In Stock

Description

The MUYA GM521 Pressure Manometer for Natural Gas is a digital differential pressure gauge used by gas fitters and technicians to test and verify natural gas line pressure. It offers selectable pressure ranges (roughly +/-2/5/10 psi) with a choice of measurement units, a large backlit LCD, and data-hold plus max/min/average reading capture for logging test results. Its fast response time and zero/calibration functions make it practical for on-site gas appliance and pipeline pressure checks.
