MUYA WT700 Infrared Thermometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA WT700 Infrared Thermometer

Manufacturer: Muya
Model: MEA-MUY-04512
Availability: In Stock

Description

The MUYA WT700 is a handheld industrial infrared thermometer for fast, non-contact surface temperature checks, reading from -50C up to 750C with a 12:1 distance-to-spot ratio so it can measure smaller or more distant targets accurately. It has a laser sight for aiming, adjustable emissivity for different material surfaces, a backlit display, and can store and recall past readings. It suits electrical, mechanical, and HVAC inspection work where touching the target isn't practical or safe.
