MUYA HD8909 Anemometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA HD8909 Anemometer

Manufacturer: Muya
Model: MEA-MUY-04525
Availability: In Stock

Description

A handheld vane anemometer for measuring wind speed and airflow volume, useful for HVAC technicians checking duct and vent output as well as general outdoor wind-speed checks. Alongside airflow it also reads ambient temperature and humidity, tracks max/min/average values over a session, and can log data to a computer over USB for later review.
