MUYA GM1370 Nfc Temperature Data Logger

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GM1370 Nfc Temperature Data Logger

Manufacturer: Muya
Model: MEA-MUY-04526
Availability: In Stock

Description

A compact, tag-style temperature data logger that pairs with a smartphone's NFC to start, stop, and read its stored temperature history with just a tap -- no cable or dedicated reader needed. Its thin, self-contained design makes it well suited for slipping into cold-chain shipments, produce boxes, or pharmaceutical parcels where the temperature record needs to be checked at delivery. A free companion app lets the recipient graph and export the full temperature timeline after scanning.
