MUYA GM610 Wood Moisture Meter

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

MUYA GM610 Wood Moisture Meter

Manufacturer: Muya
Model: MEA-MUY-04535
Availability: In Stock

Description

A pin-type wood moisture meter that measures moisture content from about 2% up to roughly 37-41% (adjustable for different wood/species settings) by pressing its two metal pins into the material. Its backlit LCD shows moisture percentage together with ambient temperature and humidity, plus data-hold and maximum-reading-review functions for convenient use while working. A practical tool for carpenters, flooring installers, and firewood or lumber buyers checking wood dryness before use or sale.
