Reed R3510 Long Stem Ph Meter, Pen, 0 To 14ph

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3510 Long Stem Ph Meter, Pen, 0 To 14ph

Manufacturer: Reed Instruments

Model: MEA-REE-04689

Availability: In Stock

Description

The REED R3510 is a compact pen-style pH meter with an extended slim probe, well suited to reaching into narrow test tubes, vials, and sample containers. It reads 0 to 14 pH with roughly ± 0.2 pH accuracy, supports automatic one-, two-, or three-point calibration with buffer recognition, and displays readings on a clear LCD. A protective storage cap keeps the electrode moist between uses, and it runs on a pair of coin-cell batteries with auto shut-off to save power.
