Reed R3510-Kit Long Stem Ph Meter And 4ph/7ph Buffer Solution Kit

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R3510-Kit Long Stem Ph Meter And 4ph/7ph Buffer Solution Kit

Manufacturer: Reed Instruments

Model: MEA-REE-04690

Availability: In Stock

Description

This bundle pairs the REED R3510 long-stem pH pen with dedicated 4.01 and 7.00 pH buffer solutions, giving users everything needed to calibrate the meter right out of the box. The pen itself covers 0 to 14 pH with automatic multi-point calibration and buffer recognition, while the color-coded buffer bottles simplify keeping the electrode properly referenced over time. It's a practical starter kit for labs, water treatment, or hobbyist applications that need consistent pH accuracy without sourcing calibration fluid separately.
