Reed R4100-Probe Replacement Vane Probe For R4100

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R4100-Probe Replacement Vane Probe For R4100

Manufacturer: Reed Instruments

Model: MEA-REE-04694

Availability: In Stock

Description

Replacement rotating-vane sensor probe built specifically for the REED R4100 air-volume anemometer, letting users restore full velocity and airflow measurement accuracy without replacing the whole meter. It uses the same vane design as the original R4100 probe and connects in place of a worn or damaged unit. A straightforward way to keep an existing R4100 in service for HVAC and building-airflow work.
