Reed R5805-nist Voltage/current Simulator W/nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R5805-nist Voltage/current Simulator W/nist Cert

Manufacturer: REED INSTRUMENTS
Model: MEA-REE-04706
Availability: In Stock

Description

The REED R5805-NIST is a handheld voltage and current source used to bench-test meters, controllers, and sensor loops. It outputs roughly -1 to 11V DC and 0 to 30mA DC with a large 6-digit backlit LCD, a kickstand for hands-free use, and a built-in LED flashlight, and runs about 20 hours on 3 AA batteries. This unit ships with a NIST-traceable calibration certificate for documented accuracy.
