Reed R6040 Digital Psychrometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R6040 Digital Psychrometer

Manufacturer: Reed Instruments

Model: MEA-REE-04709

Availability: In Stock

Description

The REED R6040 is a handheld psychrometer/thermo-hygrometer that reads temperature, relative humidity, dew point, and wet bulb temperature simultaneously on a backlit LCD. It covers -20 to 70C and 0-99.9% RH, logs up to 999 data sets internally with adjustable sampling intervals, and connects via USB-C to REED's PC software for charting and analysis. Adjustable high/low alarms with color-coded indicators make it useful for HVAC and environmental monitoring tasks.
