Reed R8075-NIST Data Logging Sound Meter, Desktop/Wall Mount W/Nist Cert

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed R8075-NIST Data Logging Sound Meter, Desktop/Wall Mount W/Nist Cert

Manufacturer: Reed Instruments

Model: MEA-REE-04720

Availability: In Stock

Description

This sound level meter is built for fixed-location noise monitoring, measuring 30-130 dB at ± 1.4 dB accuracy on a 7-inch color TFT touchscreen. It logs continuously to 16GB of onboard memory at user-set sampling intervals from 1 second to 24 hours, exporting time-stamped CSV data, and offers switchable A/C frequency weighting plus Fast/Slow response speeds. A built-in desk stand and wall-mount bracket let it serve as a permanent installation, and this unit ships with a traceable NIST calibration certificate for compliance documentation.
