SinoGnss Lidar 360 MSL Software

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

SinoGnss Lidar 360 MSL Software

Manufacturer: ERP Manufacturer #15

Model: SUR-SIN-04778

Availability: In Stock

Description

LiDAR360 MLS (Mobile/Handheld Laser Scanning) is a point-cloud processing package used to post-process data captured by mobile and backpack scanners such as the SinoGNSS LS600. It automates classification and 3D vectorization of road and infrastructure features, offers combined 3D/2D/cross-section editing, building-facade and clearance analysis, and exports to common GIS/CAD formats.
