Toknav T5 rover T5 GNSS Receiver rover set

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Toknav T5 rover T5 GNSS Receiver rover set

Manufacturer: ERP Manufacturer #25

Model: SUR-TOK-2065818

Availability: In Stock

Description

The Toknav T5 is a compact rover-only GNSS receiver built around a 1408-channel board tracking GPS, GLONASS, BDS, Galileo, QZSS, SBAS and IRNSS. It combines Bluetooth, WiFi, a built-in 4G modem and radio in a single antenna assembly, plus an IMU for tilt-compensated measurement. Housed in a magnesium-alloy, IP65-rated shell, it runs roughly 16 hours on its internal battery and pairs with a rod/pole for field data collection.
