Toknav T5 lite rover T5 GNSS Receiver rover set

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Toknav T5 lite rover T5 GNSS Receiver rover set

Manufacturer: ERP Manufacturer #25

Model: SUR-TOK-7455324

Availability: In Stock

Description

The Toknav T5 Lite is a compact, magnesium-alloy GNSS RTK rover receiver supporting all major satellite constellations (GPS, GLONASS, BeiDou, Galileo, QZSS) across roughly 1408 channels, giving centimeter-level positioning accuracy. It includes an IMU-based tilt sensor rated to about 60 degrees, and connects via built-in 4G, Bluetooth, and WiFi. It is typically supplied as a rover set with a data collector, pole mount, carrying case, and field software for cadastral, land, and engineering surveys.
