Toknav TSA500 A500 GNSS asurement ntenna

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Toknav TSA500 A500 GNSS asurement ntenna

Manufacturer: ERP Manufacturer #25

Model: SUR-TOK-1192619

Availability: In Stock

Description

The Toknav TSA500 is an external GNSS measurement antenna tracking six satellite constellations (GPS, GLONASS, BDS, Galileo, QZSS, SBAS) across eleven frequency bands for millimeter-level positioning accuracy. It measures roughly 152mm in diameter by 62mm tall, weighs about 500g, and carries an IP67 weatherproof rating for outdoor use. It's suited to land and marine surveying, dredging and channel measurement, and structural/landslide monitoring applications.
