Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Toknav Tboat20-D Tboat20-Type-D Patrol USV with Side-scan sonar, Single Beam

Manufacturer: ERP Manufacturer #25

Model: GEN-TOK-3997281

Availability: In Stock

Description

The Tboat20-D is Toknav's patrol variant of the Tboat20 unmanned surface vessel, built on a 1280x580x430mm composite (polyester carbon fiber/Kevlar) monohull weighing about 40kg total. It is fitted with a single-beam echo sounder (200kHz, 5-degree beam, 0.15-300m depth range) and can carry a side-scan sonar payload for underwater imaging while patrolling waterways. It also includes a 360-degree night-vision camera and remote-control operation, consistent with the broader Tboat20 series specs.
