Reed K4020-bulb Replacement Bulb for K4020

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Reed K4020-bulb Replacement Bulb for K4020

Manufacturer: REED INSTRUMENTS
Model: MEA-REE-01109
Availability: In Stock

Description

This is a genuine REED replacement xenon flash bulb designed for the K4020 and K4020-230V digital stroboscopes (also compatible with the K4030 series). Swapping in this bulb restores full flash brightness and stroboscopic timing accuracy once the original lamp dims or fails with age. It's an economical way to extend the working life of your stroboscope rather than replacing the whole unit.
