Muya Wt8823 Combustible Gas Detector

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

Product Overview

Muya Wt8823 Combustible Gas Detector

Manufacturer: MUYA
Model: MEA-MUY-04486
Availability: In Stock

Description

The MUYA WT8823 is a handheld combustible gas detector built to sniff out leaking fuel, propane, and pipeline gas before it becomes a hazard. It reads gas concentration across a 0-100% LEL range using a contact-combustion sensor, responds in about 10 seconds, and shows results on a bright HD screen with adjustable alarm thresholds. Built-in MAX/MIN hold, self-calibration, and auto power-off make it a practical everyday tool for gas pipeline and fuel-leak inspection work.
