# Muya Gt8911 Multi-purpose Anemometer

Professional detailed product specification sheet

This document presents a professional product overview including brand details, availability, specifications, and descriptive information for reference, sales support, and catalog-style distribution.

## Product Overview

## Muya Gt8911 Multi-purpose Anemometer

**Manufacturer:** MUYA
**Model:** MEA-MUY-04495
**Availability:** In Stock

## Description

The MUYA GT8911 is a multi-purpose digital anemometer combining wind speed and temperature measurement in one handheld unit for users who need more than a basic wind-speed check. It covers a 0-30 m/s wind range across five selectable speed units and a -10C to 45C temperature range, tracking current, average, maximum, and minimum readings along with a wind-chill indicator. The all-in-one feature set and 10-minute auto shutdown make it handy for outdoor sports, agriculture, and light industrial use.
